

This Song Kills Hate

Colin James

The truth is still the truth
No matter what they say
So take a piece of my heart
My love is here to stay
The truth is still the truth now
So get out of my way

No time to lose
And waste on [?] news
No time to look away
This song kills hate
This song kills hate

We're marching in the street
We haven't learned a thing
The world is falling apart
We're hanging on by a string
We're marching in the street
Without a [?]
There to the edge of the end
By the words of a [?]

No time to lose
And waste on [?] news
No time to look away
This song kills hate
This song kills hate

Across the great divide
We're looking for a start
A way to make it better
A light in the dark

The truth is still the truth
No matter what they say
So take a piece of my heart
'Cause love is here to stay

No time to lose
Waste on [?] news
No time to look away
This song kills hate
This song kills hate
This song kills hate
This song kills hate
This song kills hate
Yeah yeah yeah
