

## Bearing Witness

Collective Soul

Another day newspapers say  
Life what'd you do to me  
I'm always here, you're always there

Hope that's my company

Yeah stars have only so many wishes though  
They can't tell what we already know  
See I'm just gathering all my eyes can see through  
I'm bearing witness to you

I'm bearing witness to you

Familiar words the evening stirs  
Life what'd you say to me

I'm promised here, you're precious there  
Love you're my destiny

Somedays I surrender  
Somedays I resolve  
But everyday I'd conquer  
With your love  
With you love
