

## Life

## Collective Soul

Stop with all your pleasantries  
I'm riding through what here has occurred  
No time left to wait and see  
My next breath has never been assured

You can't stop me now  
You won't stop me now  
Who could stop me now  
It's all inside  
And well defined  
As life

Pride leads the course of you  
Meant to strike our souls inner core  
Locked out once again to prove  
That I've been through this shit times before

You can't stop me now  
You won't stop me now  
Who could stop me now  
It's all inside  
And well defined  
As life

You can't stop me now  
You won't stop me now  
Who could stop me now  
It's all inside  
And well defined  
As life
