

## Beautiful noise machine

Collide

All of these feelings you'd like to crush  
You're letting go  
All of these feelings tangled within  
You're letting go  
To the beautiful noise machine  
Inside my head  
Temporary  
Go inside your searching  
Always looking for somebody else  
Go inside your mind  
I must be mistaken  
Send a messenger to see you in a million years  
Try to get over try to get through in a million years  
Too many fears stuck inside  
You're letting go  
All revolving and dissolving tangled within  
The beautiful noise machine  
Inside my head  
The beautiful noise machine  
Inside my head  
It's temporary  
Take my lessons and pick myself up  
I've been contemplating  
Need a place to put my emotions  
I've got to get back up  
Send a messenger to see you in a million years  
Try to get over try to get through in a million years  
In the beautiful noise machine
