

Blacker than blue

Collide

Sea blue water underneath
Runs inside everyone
Your intention
Who you are
Indication after all
So all alone and empty
Sailing in the air
Who cares a little bit enough
Blink of an eye
Blacker than blue
Blacker than blue
Wanted to see
Like it or not
Blue blacker than blue
Finally find it
Find you love it
Finally fade away
Find the moment
Find you love it
Finally fade away
Finally find it
Find you love it
Finally fade away
Come in closer for a moment
Finally fade away
Does it matter you decide
Feel impatient so do I
Same blue water runs inside
Underneath everyone
Tell me what's the low down
Don't you know but slow down
I can find the limit where you are and what you know
Tell me what's the low down
I can't really know now
All this feeling in me
I am feeling empty
Blacker than Blue
Try to see through
Wanted to see
Like it or not
Not anymore
Blacker than Blue
Try to see through
Wanted to see
Blue blacker than blue
Blue blacker than blue
