

Every little thing

Collide

So I can't take you with me
Tear myself away
Taken I feel worried
Tear myself away
Every little thing, every little thing
Every little thing has a meaning
How can I express
Every little thing, every little thing
Every little thing has a meaning
How can I explain it
Every little thing ...every little thing
Every little thing has a meaning
How can I express
Hotter than hell
Harder than hell
Oh leave a message
Internal meaning
Oh I can't take you with me
Tear myself away
Taken I feel worried
Tear myself away
Could be the hard way
Should have a meltdown
Harder than hell
What a strain
Hotter than hell now
Should have a meltdown
Harder than hell
What a strain
Every little thing , every little thing
Every little thing has a meaning
Every little thing, every little thing
Every little thing has a meaning
Every little thing, every little thing
Every little thing, every little thing
Every little thing, every little thing
Should I find
Every thing was fine
Shiny
Everything was there
Could be the hard way
Should have a melt down
Harder than hell
What a strain
Hotter than hell now
Should have a melt down
Harder than hell
What a strain
Everything was fine
Everything was there
Everything was fine
Everything was there
Everything was fine
