

Freaks Me Out

Collide

Freaks me out
Somewhere or nothing
Think about it
Somewhere or something

Come closer
You won't change me
The only
You won't stop change

Freaks me out
Somewhere or nothing
Figure out
Something or nothing

For me

You spit me out
The only thing are the thoughts that matter

Draw me in
On the edge
Through my bones
Spits me out

Come closer
You won't change me
The only
You won't stop change
