

Holding Back

Collide

I'll look you up
Through the cracks
Conscious deprogram
Enter through my veins
Here i'll break the chain
I'll look you up
Through the cracks
Searching for something
Until it flows through your veins
Here we'll break the chain

I don't believe
You know it was a lie

Tears are holding back
Tears are holding back
Tears are holding back
Tears

What to say
There are no words
You will make me think

You could change
Elevate within you

Not today
Turn the program
Here i'll break the chain

I'll look you up
Through the cracks
Searching for something
Elevate
Make a change
Here i'll break the chain

I don't believe you know it was a lie

Tears are holding back
Tears are holding back
Tears are holding back
Tears

Tears are holding back
When the systems cracked
Tears
