

Imaginate

Collide

Inside illuminating imagination
Who do you find to save you some illusion in your mind
Oh you know I am dreaming
Whatever it's all you ever wanted
I look inside to show you what I mean
Separating color
Imaginary shades
Separating silent
Oh that's all I am revealing
Temporary color
Bluer than the sea
Everlasting distant
Possibilities
So that's another night
Imagination
Who would you say oh beside you
Some illusion in your mind
Oh you know I am dreaming
Oh whatever it's all you ever wanted
I look inside to show you everything
Invading color
Imaginary shades
Separating silent
Oh that's all I am revealing
Temporary color
Bluer than the sea
Everlasting distant
Possibilities
You wonder what you say can
Imagine all the ways
You want my heart to go with all you are
Oh your imagination
Oh each dream I find
To save you
Illusions in your mind
Oh you know how
I'm just dreaming
Oh beside you
Illusions in your mind
