

Only Human

Collide

Color of nothing, shifting paradigm
All the world around you
In this thing called life

Whatever you care to know
Whatever you can, so close

We're only human
The air that I breathe
We're only human
Underneath
You're only human
Was it enough
We're only human
Some part of me

To the other side
I won't be able to get it right
I tripped a little to the other side
I tripped a little, go for a ride

At the sight of it all
Of everything
What could ever go wrong?
Can we get along?
What's the message you send me thinking
But it's never enough

Color of nothing, color of your eyes
All the world's connected
Everything collides

Whatever you care to know
Whatever you can, so close

We're only human

The air that I breathe
We're only human
Underneath
You're only human
Was it enough
We're only human
Some part of me

To the other side
I won't be able to get it right
I tripped a little to the other side
I tripped a little, go for a ride

At the sight of it all
Of everything
What could ever go wrong?
Can we get along?
What's the message you send me thinking
But it's never enough

At the sight of it all
Of everything
What could ever go wrong?
Can we get along?
What's the message you send me thinking
But it's never enough

At the sight of it all
Of everything
What could ever go wrong?
Can we get along?
What's the message you send me thinking
But it's never enough
