

## Shooting laser beams

Collide

If I were a super hero  
I'd tell you what I'd be  
If I could choose good or evil  
If I had some super power it'd be so easy  
I'd see into the future  
If I could I'd jump off a building  
If I were invisible  
If I could I'd make the time freeze  
Could I read your mind  
I'm torn to pieces  
I'm torn to bits I'm torn  
Running around  
Shooting laser beams  
Flying around in your spaceship  
If I could I'd take all your powers  
And travel back in time  
If I could heal your damage  
And lead a double life  
I'm torn to pieces I'm torn to bits I'm torn  
Running around  
Shooting laser beams  
Flying around in your spaceship  
I'm torn to pieces  
Running around  
I'm torn to pieces  
Running around  
Once again  
I could give you the world on a string  
Don't you ever we'll meet again  
I could give you the world on a string  
I'd be indestructible  
I'd be invincible
