

Two Headed Monster

Collide

when you're standing on the edge
and you drop the key
everything seems so far away
like a two headed monster
or something in between

should i prey
should i write you a letter
what should i say
to introduce myself

you just can't get to heaven

when you're standing underneath
the sky above
everything seems so far away
you're fooling yourself

should i prey
should i write you a letter
what would i say
to introduce myself

oh you pretty
you pretty thing
you're curious
i'd think you were wrong
if i were god
got to finally keep you here
you're delusional
i've got to get to heaven
oh you pretty
you pretty thing
you're so obvious
i think you were wrong
if i were god
oh you freaky, you freaky thing
i've got to make you understand
i've got a ticket to nowhere
nowhere, nowhere
