

# The Come Up

Collie Buddz

We don't need nobody to tell us how to live  
We're gonna keep on moving upward, we're gonna build

I wrote about a million opinions that cast a shadow of doubt  
People on the outside tryna weigh in on things they know nothing about  
If they focus on their own shit just as hard as they to mine  
They might find some happiness and not cross the line

We don't need nobody to tell us how to live  
We're gonna keep on moving upward, we're gonna build  
We don't need nobody standing in our way  
We're gonna keep on moving upward, we're gonna build

Oh, you gotta love it when the trolls come out  
Got nothing better than to run their mouth  
They see me coming up, they wanna break me down  
I been working overtime, you just been laying around

You're ruthless, you're abusive, but the truth is that it's useless  
I am happy, you can't have me, you're a fool

We don't need nobody to tell us how to live  
We're gonna keep on moving upward, we're gonna build  
We don't need nobody standing in our way  
We're gonna keep on moving upward, we're gonna build

We don't need nobody to tell us how to live  
We're gonna keep on moving upward, we're gonna build  
We don't need nobody standing in our way  
We're gonna keep on moving upward, we're gonna build
