

## One Day

Collin Raye

He's superman running down the halls  
She's trying to put your make up on in the mirror  
Waiting on her best friends call  
I know they can drive us crazy  
But baby they won't stay babies forever  
Yeah, it won't be long

One day he's gonna want my keys  
One day she'll be seventeen  
Running down the stairs in a prom dress  
And we'll be saying time went by fast  
Wishing we could get some back  
Cause one day they walk and I swear the next they run  
Baby, someday we'll be wishing for one day  
One day when they were young

Soccer games doing homework late  
Her going on and on about boys at school  
It's just the start

One day he'll buy a beer for me  
One day she'll have a diamond ring  
I'll be walking her down the aisle in a pretty dress  
And we'll be saying time went by fast  
Wishing we could get some back  
Cause one day they walk and I swear the next they run  
Baby, someday we'll be wishing for one day  
Just one day when they were

Knocking on our door at midnight  
Saying, daddy, can I sleep with you  
After church making homemade pizza  
The little things that we always do  
Baby, time won't stop even if we want it to  
So we can't waste a single day...

One day before we know it  
Our names will both have a grand before it  
And our granddaughter will be spinning in a Sunday dress  
Yeah, we'll be saying time went by fast  
Wishing we could get some back  
Cause one day they walk and I swear the next they run  
(I swear the next they run)  
Baby, someday we'll be wishing for one day  
So don't waste one day  
No, don't waste one day  
One day when they're young
