

Say Hello to Heaven

Collin Raye

I lie awake each night and call your name
The sound of my own voice drives me insane
I am doing everything I can
To face the truth and take this like a man

Won't you say hello to Heaven for us
Tell Jesus we're not mad, but we miss you so much
Please ask him when he comes back to take us where you are
And help me to forgive the man in that other car

It's hard to believe your really gone
But you left me one good reason to carry on
I love our baby girl more than life
And she needs her momma and I need my wife

Won't you say hello to Heaven for us
Tell Jesus we're not mad, but we miss you so much
Please ask him when he comes back to take us where you are
And help me to forgive the man in that other car

Oh I wish that men had known when he found before this keys
He was taking your sweet love away from me

Won't you say hello to Heaven for us
Tell Jesus we're not mad, but we miss you so much
Please ask him when he comes back to take us where you are
And help me to forgive the man in that other car
