

## Nikad Više

Colonia

Srce je moje zagrlio muk  
Sa violina više ne dolazi zvuk  
Tama je prekrila potonuli grad.

Time has become my worst enemy  
All through the years there was nobody to set me free  
For this pain, captured me forever.

Nikad više moje oèi neæe jutra vidjeti  
Bez tebe nikad više neæu disati  
Loosing our sacred love is what I'll never forgive myself  
And I will never, never be the same.

You are the bliss of my memory,  
When I close my eyes the only thing that I see  
Now I know, you were kissin' a fool.

Siva je boja moje ljubavi  
U meni sreæa veæ odavno ne postoji  
Zadnji si osmijeh u meni slomio ti.

Nikad više moje oèi neæe jutra vidjeti  
Bez tebe nikad više neæu disati  
Loosing our sacred love is what I'll never forgive myself  
And I will never, never be the same.

Loosing our sacred love is what I'll never forgive myself  
'cause there is no one that could ever take your place  
Nikad više moje oèi neæe jutra vidjeti  
Bez tebe nikad više neæu disati.
