

Before I'll Give In

Colony 5

Should I be scared, how do you all fight the thoughts about death
The feelings of emptiness in our hearts
Do we exist to be or go on to a higher place or a lower not so loved
We can call it Hell

When I die, will the emptiness eat me like alive
Will there be a tunnel of light like a sign
To guide the way to something greater than the mind
I want some answers fill me in before I die

Who's to say how we choose the way we want to go
Maybe even possible to reborn in different shapes
It's all a question mark printed in my head, I have to confess my sins
Before I'll give in.

When I die, will the emptiness eat me like alive
Will there be a tunnel of light like a sign
To guide the way to something greater than the mind
I want some answers fill me in before I die
