

# Looking for Some Light

Colony House

I look around a room that's filled with faces  
Every tear a window to the soul  
Like silent unsung symphonies  
The wild and the wonderful mysteries  
Masterpieces I will never know

Cause everybody's looking for some light  
You know everybody's looking for some light

And when the world is weighing on your shoulder  
When the sorrow's heavy on your soul  
Carry on and sing it like a soldier  
Saying, "Come on! Come on!  
We're gonna make it home!"

Cause everybody's looking for some light  
You know everybody's looking for some light  
So come on come on  
Everybody's looking for some light

And darkness blurs the vision  
Like a veil before our eyes  
That love alone is able to divide  
You know everybody's looking for some light  
You know everybody's looking for some light

So come on come on sing it like a soldier  
Come on come on you know it ain't over  
Everybody's looking for some light  
So come on come on sing it like a soldier  
Come on come on you know it ain't over  
Everybody's looking for some light  
You know everybody's looking for some light  
You know everybody's looking for...
