

Would Ya Could Ya

Colony House

I got a busted lip
I got a broken fist
I got a cut on the eye
I gotta take it on the chin
So someone might take me serious

You better make your move
You better make it quick
You gotta work the room
And lay it on real thick
Oh no!
I gotta go!

Would ya would ya wanna runaway with me
Runaway with me
Like the movies baby
Could ya could ya use a change of scenery
Change of scenery
I know I could lately
Would ya would ya would ya
Could ya could ya could ya
You know I could baby

I'm like a wrecking ball
Who never hits the wall
A tidal wave
Who can't catch a break
But I've got potential

I need a change in the wind
A strike of lightning
A set of fresh ideas
'Cause I got no idea
Oh no!
I gotta go!

Would ya would ya wanna runaway with me
Runaway with me
Like the movies baby
Could ya could ya use a change of scenery
Change of scenery
I know I could lately
Would ya would ya would ya
Could ya could ya could ya
You know I could baby
You know I could baby

And the world keeps moving faster
Spinning around like a natural disaster
And I know it won't stop
So I'm starting over just to see what I've got

Would ya would ya wanna runaway with me
Runaway with me
Like the movies baby
Could ya could ya use a change of scenery
Change of scenery

I know I could lately
Would ya wanna runaway
Would ya wanna runaway with me
Could ya use a little change
I know I know I could lately
