

## Written On Your Face

Color Me Badd

If you don't mind  
Don't tell me that lie  
I can see right through you  
Your expression tells me more  
Than words could ever do  
I see right through you

Hit me off, sugar don't run away  
C'mon baby, it's written on your face  
No other love is ever gonna take your place  
C'mon lady it's written on your face  
If you don't show it  
Then how would I know it  
Mama you can't let this slip away  
Now why you keep runnin' on  
When what you want is right here  
Let love break me through your fears  
She's hot she's fine  
She knows she got the whole world in her eyes  
She blows my mind  
The love's right here she knows she can't deny

Every night, every day  
I long to see your love come my way babe  
Don't deny, keep it real  
I need to know how you really feel

You want me I can see  
Plain and simple reality  
Baby don't deny, keep it real  
I already know how you really feel
