

Carousel

Colorblind

There's a hole in my head (In my head, in my head)
Tangled in your web (In your web, in your web)

Just keep your eyes off me
Ask no questions
Turn your cheek
Just lie to me
A chance you'll listen (A chance you'll see)

So tie a rope, tie a rope
And don't let it free
They wash the blood from your hands
So you can escape
And even though we won't make a difference
I just want you to know
That because of you

There's a hole in my head
I'm spinning around
I'm stuck on a carousel
Tangled in your web
Whose fault is it now?
I'm stuck on a carousel
(Stuck on a carousel, stuck on a carousel)
(Stuck on a carousel, stuck on a carousel)

Am I the disease?
'Cause your body won't stop rejecting me
And does your heart stop beating
'Cause it kills you to believe in me

So tie a rope, tie a rope
And don't let it free
They wash the blood from your hands
So you can escape
And even though we won't make a difference
I just want you to know
That because of you

There's a hole in my head
I'm spinning around
I'm stuck on a carousel
Tangled in your web
Whose fault is it now?
I'm stuck on a carousel
There's a hole in my head
I'm spinning around
I'm stuck on a carousel
Tangled in your web
Whose fault is it now?
I'm stuck on a carousel
(Stuck on a carousel, stuck on a carousel)

I'm stuck on a carousel
Can't fix the ride that's broken
No taking back the words we've spoken
But I give you a lifeline

Give you a test drive (A test drive)
(Stuck on a carousel, stuck on a carousel, stuck on a carousel)
But I give you a lifeline
Give you a test drive (A test drive)

There's a hole in my head
I'm spinning around
I'm stuck on a carousel
Tangled in your web
Whose fault is it now?
I'm stuck on a carousel
There's a hole in my head
I'm spinning around
I'm stuck on a carousel
Tangled in your web
Whose fault is it now?
I'm stuck on a carousel
