

# Shameless

Colorblind

I'll call it bad luck  
You'll call it karma  
You said to hell  
With these games  
You were part of  
Shouldn't have lost it  
Over and done with  
I would've given everything you need

So I'll sleep  
'Cause only in my dreams  
I'm not alone

I'm dead to the world I love  
Keep me high  
'Cause I need that rush  
I feel so low, feel so low  
Am I wrong or is this fucked up?  
This was always meant for me  
Something more than you could see  
I feel so low, feel so low  
And I'm shameless

So if I leave for a little bit  
Would you even give a shit  
If I told you I'm comin' back  
So I'll stay away  
'Cause you hate the way you love me

So I'll sleep  
'Cause only in my dreams I'm not alone

I'm dead to the world I love  
Keep me high  
'Cause I need that rush  
I feel so low, feel so low  
Am I wrong or is this fucked up?  
This was always meant for me  
Something more than you could see  
I feel so low, feel so low  
And I'm shameless

(I'm shameless)  
(Shameless)  
And I'm shameless  
Shameless

So I'll sleep  
'Cause only in my dreams I'm not alone

I'm dead to the world I love  
Keep me high  
'Cause I need that rush  
I feel so low, feel so low  
Am I wrong or is this fucked up?  
This was always meant for me  
Something more than you could see

I feel so low, feel so low  
And I'm shameless
