

The Deep End

Colorblind

You confine me to my demons
When we fuck it's like I'm dreaming
Got me stuck inside my feelings
Make me dive into the deep end

You just wanted my attention
All caught up in bad intentions
I only like it when I'm wasted
When I'm sober gotta fake it

I'm over discussing it
Yea we've seen the behavior that causes this
Just a couple drinks and I'm numb to it
You said that would save me
I'll drown instead, I'll drown instead

You confine me to my demons
When we fuck it's like I'm dreaming
Got me stuck inside my feelings
Make me dive into the deep end

I just found you in the worst place
Had me goin in a rampage
I don't wanna watch you take it
I just watch you cave in

I'm over discussing shit
Yeah we've seen the behavior that causes this
Now I'm moving slowly, I'm feeling it
You said that you would save me
I'll drown instead, I'll drown instead

You confine me to my demons
When we fuck it's like I'm dreaming
Got me stuck inside my feelings
Make me dive into the deep end

You confine me to my demons
When we fuck it's like I'm dreaming (I'm dreaming)
Got me stuck inside my feelings
Make me dive into the deep end

I'm diving in, I'm diving in
Got me stuck inside my feelings (my feelings)
Make me dive into the deep end
