

# I Won't Stop

Colour Haze

You distrust every thing not conventional or simple  
Hate any thing that's complex, new or different  
Curious for nothing, nothing else but tits, yeah  
But I won't stop

I'm curious for something new and not conventional  
Gotta see it different, view the total inhibition  
Trust your heart and believe only in your love, yeah  
And I won't stop

Don't fear the life, don't fear what comes and what is  
going

Don't choke under concrete, just let it all be growing  
Get into the groove and get into the floating  
And I won't stop

There's only one commandment, you can do what you want to  
But never act in hatred, always be with love yeah  
Be with love with all and everything that's living  
And I won't stop

Lord yeah
