Sun

Colour Haze

Back on the tracks I'd ride before, to the other shore Now I turned a circle to an 8

Could it safe me a day when there was something new to Learn could I get that turn

With fear and anger all within I find a new sun

Back on the tracks I'd ride before, to the other shore

Now I turned a circle to a 9

Find me in the dead end line

1 in the desert once again clear my wounds up 2 find What's been left to seek with A mind set 3, 4 this lonely morning send me 5 dew-drops For one who 6 liquid in The dried 7 it all starts again

I'm gonna get to find me a new sun A new sun
