

Dirt Road Disco

Colt Ford

There's a little place 30 miles south of town
Where the country kids go just to get down
There's a bend in that road just past Willie's old bar
And there's a "See Rock City" sign and that dog in the yard

You hang it left, and you hang it right
Then you park it in the middle on a Friday night

Set of busted Pioneers on the back of an old John Deere
DJ booth in the bed of a Silverado
Christmas lights up in the trees, bonfire, smoke machine
Girls spinning like a Texas tornado
No limos, no velvet roads, no VIP, no list to the door
Just 4x4s on the muddy dance floor, that's the way it goes
At the Dirt Road Disco

Easy on the dress code, cover charge is free
Be who you wanna be and BYOB
You never see these dance moves watching MTV
That line dance in the dirt called the watermelon twerk

You shake it left, and you shake it right
Then you drop it in the middle on a Friday night

Set of busted Pioneers on the back of an old John Deere

Christmas lights up in the trees, bonfire, smoke machine
Girls spinning like a Texas tornado
No limos, no velvet roads, no VIP, no list to the door
