

Home For Christmas

Colt Ford

Work 52 weeks just to pay them bills
Every road I'm ridin' down round is all up hill
Lucky to be working but sometimes I still
Need to catch a break for yeah just a day
Sure feels good when I can just stop movin'
Take a deep breath like I ain't been through it
So this time of year I drop everything I'm doing
And go home for Christmas

These old wheels seem to never stop turning
Time to give back and keep the home flame burnin'
The more I'm gone the more I'm learnin'
That god is so good to us
Another day another dollar in this old rat race
I just want to see a smile on my kids face
Ain't nothing in the world that can take the place
Of going home for Christmas

Work 52 weeks just to pay them bills
Every road I'm ridin' down round is all up hill
Lucky to be working but sometimes I still
Need to catch a break for yeah just a day
Sure feels good when I can just stop movin'
Take a deep breath like I ain't been through it
So this time of year I drop everything I'm doing
And go home for Christmas

It seems this time of year everybody is more lovin'
Will carry more given yeah my kind of livin'
Lot of huggin' and kissin' dreamin' and wishin'
For peace on earth
A lot of hopin' and prayin' for our soldiers safety
And seeing god's grace and a new born baby
Thank the lord up above for all he gave me
And taking me home for Christmas

Work 52 weeks just to pay them bills
Every road I'm ridin' down round is all up hill
Lucky to be working but sometimes I still
Need to catch a break for yeah just a day
Sure feels good when I can just stop movin'
Take a deep breath like I ain't been through it
So this time of year I drop everything I'm doing
And go home for Christmas

Yeah it sure feels good when I can just stop movin'
Take a deep breath like I ain't been through it
So this time of year I drop everything I'm doing
And go home I go home for Christmas
Home for Christmas

Merry Christmas y'all
