

# Nightcap

Colt Ford

I got a fireplace needs some wood on it  
I got a king bed, want you on it  
We ain't catchin' z's 'til three in the mornin'  
You know where the keys at, you ain't gotta call me baby  
We can sip some Bombay in Bombay  
We both had a long day, we off, yay  
I'll be your little after party party spot  
Once we get it started girl, we can't stop

How 'bout a little nightcap?  
Girl, you know you like that  
Give you what you need  
You always give it right back  
Yeah, we on the right track  
Love the way your body talks  
Chasin' every kiss, mix it with a body shot  
You're like champagne poppin'  
Damn thing's droppin'  
Got to top it all off with you  
How 'bout a little nightcap?  
You know you want a nightcap

I can be your last call, call it what you want  
You know you're my number one so I'ma put you in a song  
We are catchin' feelin's 'cause they're comin' on strong  
I'm wide awake dreamin' 'bout it all night long (Let's go girl)  
I ain't talkin' pillow talk, we in the hall  
We on the couch, against the wall  
Little this, little that, little zip, little snap  
You're my addiction I don't want no break  
So baby what do you say?

How 'bout a little nightcap?  
Girl, you know you like that  
Give you what you need  
You always give it right back  
Yeah, we on the right track  
Love the way your body talks  
Chasin' every kiss, mix it with a body shot  
You're like champagne poppin'  
Damn thing's droppin'  
Got to top it all off with you  
How 'bout a little nightcap?  
You know you want a nightcap

I like the way it's goin' down, down, down  
Let's go another round, round, round  
Your body's like a town, town, town  
I'ma cover me some ground, ground, ground  
How 'bout a little night cap?  
How 'bout a little night cap?  
How 'bout a little night cap  
You already know  
Let's go

How 'bout a little nightcap?  
Girl, you know you like that

Give you what you need, you always give it right back  
Yeah, we on the right track  
Love the way your body talks  
Chasin' every kiss, mix it with a body shot  
You're like champagne poppin'  
Damn thing's droppin'  
Now to top it all off with you  
How 'bout a little nightcap?  
You know you want a nightcap
