

# High & Mighty

Colter Wall

Tom Taylor's colt from Candiac  
Has made his marks in cowboy tracks  
Buckin' down the best at Calgary  
A pet stud colt that liked to buck  
Changing lots of cowboy luck  
Snapping high and hard and wild and free

And we said let's change his name to High and Mighty  
He bucks higher than he should  
And he's mighty hard to ride  
And on a saddle bronc that's High and Mighty  
If he can't buck you off, you've learned to ride

Three years spent sent out bareback  
Trailed and rodeoed in the slack  
Till Brown and West put a saddle on one day  
It lit the fuse for down the road  
From the chute now he'll explode  
Let the cowboys scatter where they may

And we said let's change his name to High and Mighty  
He bucks higher than he should  
And he's mighty hard to ride  
And on a saddle bronc that's High and Mighty  
If he can't buck you off, you've learned to ride

He's hot-branded one-oh-eight  
Pull down your hat and throw the gate  
Brown and West's six year old's the best  
He can take you through the door or he can put you on the floor  
High and mighty of the golden west

And we said let's change his name to High and Mighty  
He bucks higher than he should  
And he's mighty hard to ride  
And on a saddle bronc that's high and mighty  
If he can't buck you off, you've learned to ride

If he can't buck you off, you've learned to ride
