

The Shape Of Your Love

Colton Dixon

When I feel out of place
Not quite real out in space
Can't fit in on my own
My own skin isn't home

Then I find out I've strained too hard
Need a place to put my heart

The shape of your love is in the grace I'm given
Always enough to fill the void inside
I wanna grow into the shape of your love

Out of touch, gone too far
Need a light, just a spark
Reignite, heal my scars
I wanna be where you are

Then I find out I've strained too hard
Need a place to put my heart

The shape of your love is in the grace I'm given
Always enough to fill the void inside
I wanna grow into the shape of your love

The shape of your love is in the grace I'm given
Always enough to fill the void inside
I wanna grow into the shape of your love

Your love [repeated]

The shape of your love is in the grace I'm given
Always enough to fill the void inside
I wanna grow into the shape of your love

The shape of your love is in the grace I'm given
Always enough to fill the void inside
I wanna grow into the shape of your love

Your love [repeated]
