

## Be Human

Coma Cinema

And the headlights shining down in your brain  
Do you finally stand for the things you say  
Screaming out from hell and the demons say  
I know we'll be human one day

And the people you owe finally get payed  
And the people that love you  
Know you felt the same way  
And the insects chirping in your veins  
I know we'll be human one day

There was never any reason to hide away  
Do you finally see that you were always safe  
You'll get what you want  
So enjoy the wait  
I know you'll be human one day
