

Burden

Coma Cinema

When you get off work
Come by my house, and lay your burden down

May the world the keep spinning, until it
Spirals out, lay your burden down

My mom's gone to California
They got a treatment center there
My mom had a fucked up childhood
That's the burden that we both bear, lay your burden down

I quit drinking
But I still smoke, lay your burden down

Carried down a highway with
Nowhere else to go, lay your burden down

My mom's gone to California
They got a treatment center there
My mom had a fucked up childhood
That's the burden that we both bear, lay your burden down
