She's an angel floating above
I want to love her until I'm all out of love
I'm a baby in my little house in hell
I can die and be someone else

You live inside a dead dream
With some dead boy you do not know

She's an angel floating in hell
I am just myself
Everyone is baby Jesus
Every day is just like Christmas

You live inside a dead dream
With some dead boy you do not know
You live inside a dead dream
With some dead boy you'll never know
