

Greater Vultures

Coma Cinema

Better vultures shake
Tear me through your mouth
Nothing's going to come between us now
Nothing's going to separate us now

If you're willing to eat
What the vultures will not

Rape my broken will
Are you hungry enough to kill?
Murderous heat of the space you cannot fill
Murderous heat of the space you'll never fill

Unless you're willing to eat
What the vultures will not

Shake in my lungs shake
Black flies dry me out
Satan raised in a heart that's coming down
Satan raised in a heart that's coming down

I am willing to eat what the vultures will not
Are you willing to eat what the vultures will not?
