

Marie (No Sleep)

Coma Cinema

Terrified sunlight
Rising in your eyes
Never wanted to try
Never wanted to try

Your first boyfriend died
Spirits still rip through your mind
You can leave this world behind
But when you do be kind to me

Marie, no sleep
No sleep

Come on rock the void
Lonely and so paranoid
Put me in my place
Put me in my place

Your first boyfriend died
Spirits still rip through your mind
You can leave this world behind
But when you do be kind to me

Marie, no sleep
No sleep
