

## Pony Up

Coma Cinema

You got to pony up your soul if you wanna live in this world  
Spin a mind into gold, diamonds, and pearls  
Don't think about the end because it's never gonna come  
You're a genius baby but you gotta play dumb

You gotta kill yourself on ice if you wanna live in this world  
Maybe it's a lucky night for the new "it" girl  
Don't treat me like a friend you know we've been through that g  
lass  
If I could wrap my mind around you I would never look back

You gotta tell a lot of lies if you wanna live in this world  
Digging little graves with every idiot word  
Don't worry about the truth, it doesn't really exist  
I have a heart no one can break, ignorance is bliss

You gotta pimp yourself out  
If you wanna live in this world  
You gotta hate yourself right  
If you wanna live in this world  
You gotta burn it all down  
If you wanna live in this world  
You gotta sell your friends out  
If you wanna live in this world  
Cry your tears behind your mask  
If you wanna live in this world  
You can never look back  
If you wanna live in this world  
Conversations with grief  
If you wanna live in this world  
Bury everything deep  
If you wanna live in this world  
Design the cage around your heart  
If you wanna live in this world  
Laughing at the stars  
If you wanna live in this world  
Find humor in despair  
If you wanna live in this world  
Find humor in despair  
If you wanna live in this world

Find humor in despair  
Find humor in despair  
Find humor in despair, yea yea  
Find humor in despair
