

## The Truth

Coma Cinema

Everything's impossible now  
You've burned your village down

Don't tell the truth  
Do what is done to you

This angel knows the way to Hell  
Why won't she take us there?

Don't tell the truth  
Do what is done to you

And tonight all across the world  
Evil people living well  
I call on you avenging angel

Years have not dulled down this revenge, no  
They've only sharpened it

Don't tell the truth  
Do what is done to you

Don't tell the truth  
Do what is done to you
