

We Are Only Time

Coma Cinema

Dead in the mind
From my fucked up little life
I will remember who I was
Try all I can try try try
I will remember who I was

That's what hell does for love
That's what hell does to God

God dug me out
Of my mother's drunken heart
I remember who I was
We are only time
And we pull ourselves apart
I remember who I was

That's what hell does for love
That's what hell does to God
