

Whatever Happened To My Country

Combat 84

Fully loaded I got my gun

Bang bang bang, I'm gonna shoot you just for fun

They say I'm mad and they can see it in my eyes

Just let me lock and load and they're in for a surprise

Whatever happened to my country

Whatever happened to the place where I come from

Whatever happened to my country

Whatever happened to the place where I was born

They try to ignore us but we aint done for yet

We'll pay a visit, just so you don't forget

We're still fighting and yes we're still a threat

With us what you see is what your gonna f**king get
