

# One Fire

Combichrist

We all got nightblood  
We all got the night in our veins  
Starting over  
Light the fuse, get it on

One fire  
One fire  
One fire  
Come and burn with me

I travel through eyes, see the world through yours  
There's no use to pretend  
I lived inside their hearts  
Warriors that hide in the dark  
I've seen it over and over again

Fighting the day, the night in your veins  
I see your soul burning through your eyes  
Fighting the day, the night in your veins  
You see the storm bleeding through the skies

One fire  
One fire  
One fire  
Come and burn with me  
One fire  
One fire  
One fire  
Come and burn with me

Fighting the day, the night in your veins  
I see your soul burning through your eyes  
Fighting the day, the night in your veins  
You see the storm bleeding through the skies

One fire  
One fire  
One fire  
Come and burn with me  
One fire  
One fire  
One fire  
Come and burn with me

Set the fuse, get it on  
Set the fuse, get it on  
Set the fuse, get it on  
Set the fuse, get it on

Pain, bloody, ready  
Pain, bloody, ready  
Pain, bloody, ready  
Pain, bloody, rain  
Now

One fire  
One fire

One fire  
Come and burn with me  
One fire  
One fire  
One fire  
Come and burn with me
