

## Understand

Combichrist

Today is not the right day to fall apart  
Pick up the pieces, walk out of the dark  
They won't discriminate  
It will swallow you whole

Pick up the pieces, walk out of the dark

No one is safe, contaminated  
Brain corrupted, all common sense  
On a single line with our backs to the wall  
No heart, no compassion at all

When there is no hope left in her eyes  
Only wanted to understand, but there is no reason why  
It makes it hard to pretend  
And now we wait for the wounds to heal  
Only wanted to understand, but there is no reason why

Pick up the pieces, walk out of the dark  
Pick up the pieces, walk out of the dark

This is real life  
This is me being honest

They won't discriminate (They won't discriminate)  
It will swallow you whole (It will swallow you whole)

When there is no hope left in her eyes  
Only wanted to understand, but there is no reason why  
It makes it hard to pretend  
And now we wait for the wounds to heal  
Only wanted to understand, but there is no reason why  
When there is no hope left in her eyes  
Only wanted to understand, but there is no reason why  
It makes it hard to pretend  
And now we wait for the wounds to heal  
Only wanted to understand, but there is no reason why
