

# Face the Fire

Comeback Kid

A product of change, through a prodding for pain  
Biting a tone you've heard once before  
The dawning of another inexcusable  
Action, remorse without recourse

Fraudulent circles below  
This glass ceiling has turned to stone  
Is there nowhere else to go?  
Overlooked, maybe someone else will know

I tried, but I can't change your mind  
Until you pull me under, face the fire (Face the fire)

A story untold  
Staggering from the blow  
I wanted, I wanted to say  
But there's no "us," it's just me

A story untold  
Cornered with no resolve  
Forward into a fate that no one should face  
Alone and surrounded by wolves

I tried, but I can't change your mind  
Until you pull me under, face the fire (Face the fire)  
I tried, but I can't change your mind  
Until you pull me under, face the fire (Face the fire)

We're still banging that drum  
We'll see what happens  
Now you get your chance to face it  
Face the fire (Face the fire)

Poison pressure  
This glass ceiling's turned to stone  
Poison pressure  
Is there nowhere else to go?

Forward into a fate  
Alone and surrounded by wolves  
Forward into a fate (Is there nowhere else to go?)  
Alone and surrounded by wolves

I tried, but I can't change your mind  
Until you pull me under, face the fire (Face the fire)  
I tried, but I can't change your mind  
Until you pull me under, face the fire (Face the fire)
