

# Heavy Steps

Comeback Kid

Heavy steps on hollow ground!

You're testing under estimating  
And look, it's not the first  
Are you sure? it's a pattern, see?  
Just settle down, a bit faded  
Spin on up, cause you might as well leave it to rest

Thrown down and hit the ground running  
Utter up a response, you can't stay in here  
But the locks are firm  
Keep storing it  
Rings opposite  
How?

I'm caving, not worth saving  
The song's faded but I'm deadpanned waiting for an avalanche  
It'll take us all  
I'll be the last to fall  
I'm caving, not worth saving  
The song's faded but I'm deadpanned waiting for an avalanche  
It'll take us all  
I'll be the last to fall

Better run, better now  
Bet it's worth betting on  
Not always gonna win  
Crawling on thin ice  
I'm stalling...  
Please I'm calling!

Thrown down and hit the ground running  
Utter up a response, you can't stay in here  
But the locks are firm  
Keep storing it  
Rings opposite  
How?

I'm caving, not worth saving  
The song's faded but I'm deadpanned waiting for an avalanche  
It'll take us all  
I'll be the last to fall  
I'm caving, not worth saving  
The song's faded but I'm deadpanned waiting for an avalanche  
It'll take us all  
I'll be the last to fall

So come test my...  
Come test my...  
Come test my soul!

Heavy steps on hollow ground!  
No treading light on hollow ground!

I'm caving, not worth saving  
I'm still waiting for an avalanche  
It'll take us all

I'll be the last to fall  
I'm caving, not worth saving  
The song's faded but I'm deadpanned waiting for an avalanche  
It'll take us all  
I'll be the last to fall
