

# I'll Be That

Comeback Kid

This tension keeps on building  
Pressing its way out my chest  
I never wanted you seeing me like this  
I know you've got bigger problems  
But tonight I'm out of body and mind  
And tonight I'm on a steady decline  
I resent myself  
Alleviate the symptoms of this hell

I'll be there stuck in a vault  
I'll be that  
You got me with and without  
My demons  
An unrelenting assault  
I'm feeling  
I'll be that

I'll be there stuck in a trap  
I'll be that  
You got me with and without  
My demons

I'll be that  
Frankly I'm sure I don't help  
Rookie hysteria bouts  
I'll be that  
Dooming, I'm facing the fall  
I'll be that

Vision distorted and all  
I'll be the first to admit  
Appreciate, that I could see no use until it reared its head  
I can't get out of my head  
I can't get out of my head  
Find my peace before I end up dead

It's a strain that's wavering  
Pressing its way out my chest  
I don't want you to see me like this  
Take my thoughts anywhere else, I'll follow

I'll be there stuck in a vault  
I'll be that  
You got me with and without  
My demons  
An unrelenting assault  
I'm feeling  
I'll be that

I'll be there stuck in a trap  
I'll be that  
You got me with and without  
My demons

I'll be there stuck in a trap  
I'll be that  
You got me with and without

My demons
