God don't like ugly, and neither do I
God don't like ugly, and neither do I
Fuck a bad bitch, then I nut on her eye
Fuck a bad bitch, then I nut on her eye

God don't like ugly, and neither do I
Fuck a bad bitch, then I nut on her eye
Ride with the fire, I'm not ready to die
Pass him a-Pass him a tissue, he ready to cry
When I have the 9, I'ma shoot 'til he dies
Yes, I'm rollin' up dope, but I'm already high
When I have the 9, I'ma shoot 'til he dies
Yes, I'm rollin' up dope, but I'm already high
God don't like ugly, and neither do I
Fuck a bad bitch, then I nut on her eye

Sike, bitch, I'ma stay rich
Fuck on that bih, make her dip like a chip (Fire)
Shoot with the stick, he pop like a zit (Bew)
Packaging route, delivered it quick
He 5 minutes out, just give him a bit
He brought the gas, he brought the shit
He brought the flame, bitch, I'm ready to pit
He brought the cookies, now where is the milk?
I want some food, now I got the munchies
Made that boy jump then I cut off his bungee
This is a stick up, this not a drill
Blow off his foot just to show him it's real
I don't like the label, but come read the deal
Throw me a 100, turned that to a mill'
I bought my first crib 'fore I learned how to live
It's on a hill, I bought it for real (For real)
