

Devil And Me

Commander Cody And His Lost Planet Airmen

I've been fighting all my life
Just to keep my hands clean
Lord knows, cause he's seen me try
We had a life for each other
My woman, wife, and lover
It hurts me to see it all die

But now you're right beside me
And you're crying on my shoulder
Life's a reckless thing that I done

If you wanna know
What's going on inside of me
In the battle for my soul
The devil won

Cause it's a long way to heaven
When you're heading down
It's a hard road to travel
To turn your life around
It's a long way to heaven
If your soul ain't free
But it's a quick trip to nowhere
For the devil and me

We fell in love together
Thought it would be forever
But there's a side of me you'll never know

You always loved and trusted me
And never even questioned me
When time would come when I would have to go

And every time you needed me
Something deep inside
Never would allow my love to show

Early in the evenin'
And the shadows come a peepin'
The devil calls
And I can't answer no

Cause it's a long way to heaven
When you're heading down
It's a hard road to travel
To turn your life around
It's a long way to heaven
If your soul ain't free
But it's a quick trip to nowhere
For the devil and me
