

## Wine Do Yer Stuff

### Commander Cody And His Lost Planet Airmen

Today was the last day you played me for a fool  
So I stopped in here like I always do before I lose my cool  
I need to make my mind relax 'cause I think I've had enough  
Come on wine, wine, wine, do yer stuff

Wine take me for a ride  
Send my thoughts flyin' high let my brain unwind  
She let me down too many times I think I've had enough  
Come on wine, wine, wine, do yer stuff

Now the color of this warm red wine is the color of her hair  
As I stare into my glass I see her face in there  
One more bottle if you please, the goin's gettin' rough  
Come on wine, wine, wine, do yer stuff

Wine take me for a ride  
Send my thoughts flyin' high let my brain unwind  
She let me down too many times I think I've had enough  
Come on wine, wine, wine, do yer stuff

Come on wine, wine, wine, do yer stuff
