

# Look What You've Done To Me

Commodores

When we started,  
my heart was in your hands,  
you were my woman  
and I know I was your man  
Then you changed baby  
And I still don't understand  
Why you going creeping  
Oh less than a man

Look what you've done to me baby  
Look what you've done to me  
Look what you've done to me baby  
Look what you've done to me  
Yeah, look what you've to me  
Haven't I tried  
To give you loving  
And everything else baby  
That my mind and body can  
Now that we've parted  
And gone our separate way  
I can see you feel the heartbreak  
Each and every day

Look what you've done to me baby  
Look what you've done to me  
Look what you've done to me baby  
Look what you've done to me  
Look what you've done to me baby  
Look what you've done to me  
Look what you've done to me baby  
Look what you've done to me

Baby, baby  
Ooh baby, baby  
Say baby, ooh baby  
Baby, baby

Look what you've done to me  
Look what you've done to me  
Look what you've done to me  
Look what you've done to me  
Look what you've done to me baby  
Look what you've done to me  
Look what you've done to me baby  
Look what you've done to me  
Look what you've done to me baby  
Look what you've done to me  
Look what you've done to me baby  
Look what you've done to me  
Look what you've done to me baby  
Look what you've done to me.
