

Welcome Home

Commodores

Somethin' is missing
At night, I'm all alone
Have you been kissin'
Someone else?
And why don't you listen
When love is not around?
You know that I've been down
Have you been just as lonely

Welcome home
Baby forget the past
Now we've got the chance
To start again
Welcome home
Maybe our love's gonna last
And kiss goodbye the trance
That we've been in

Happy to see you
I've been wondering how you're feeling
Living without me
In your life
I wanted to call you

But I was too afraid
To pick up the telephone
You ran away and left me
On my own
And now you're just as lonely

Welcome home
Baby forget the past
Now we've got the chance
To start again
Welcome home
Maybe our love's gonna last
And kiss goodbye the trance
That we've been in

If your love is on fire
Baby, let me fan the flames
No time for lyin'
No time for playin' games
Surely we can make it
Baby, if we try again

You've been away
Much too long
Now you're coming home
If you know your love is true
You never will be lonely

Bring your lovin' home now
No more feelin' lonely
Lady's coming home to me

Bring your lovin' home now

No more feelin' lonely
Lady's coming home to me

Bring your lovin' home now (welcome home)
No more feelin' lonely
Lady's coming home to me (oh baby)

Welcome home
Baby forget the past
Now we've got the chance
To start again
Welcome home
Maybe our love's gonna last
Kiss goodbye the trance

Bring your lovin' home now
No more feelin' lonely
Lady's coming home to me

Bring your lovin' home now (Welcome home)
No more feelin' lonely (lonely)
Lady's coming home to me (Bring your lovin' oh girl)

Bring your lovin' home now
No more feelin' lonely
Lady's coming home to me (home to me)

Bring your lovin' home now
No more feelin' lonely
Baby's coming home to me hey, hey

Welcome home
Baby, forget the past
Now we've got the chance
To start again
Welcome home
Maybe our love's gonna last
Kiss goodbye the trance

Bring your lovin' home now
No more feelin' lonely
Baby's coming home to me
