

## My HMO Won't Cover This

### Common Enemy

i made it threw the night and the only one left alive  
i cut and chopped and fought my way cause i wanted to survive  
the dead were f\*\*king ticked and they couldn't let it go  
they're up again, they want revenge, you wanna fight lets go  
ok now i'm pissed, evil dead don't f\*\*k with this  
i'll rip their eyes out from their sockets and stick them in my  
front coat pocket  
oh yeah come to think, my hmo won't cover this  
you better home i f\*\*king die cause now i'm out for every dime  
it's a battle royal, no holds bar, and the blows are hitting lo  
w  
we fight and fight, and fight, fight, fight, the damage starts  
to show  
then the dead possessed my hand so i sawed the f\*\*ker off  
i hope you know the games over and i'll beat you with my stub  
run - i'll cut your body into bits  
hide - i'll make you dead a second time  
run - i'll even give you a head start  
hide - too late bud your ass is mine
